To Whom It May Concern:

It is my pleasure to write a letter in support of the continuing prevention efforts Kathy Cluff makes in Crook County through the Prevention Management Organization.

I have had the privilege of working alongside Kathy on numerous projects over the past three years. Kathy has been instrumental in creating a health coalition in Crook County, bringing in stakeholders from various communities representing health, law enforcement, education and private businesses, to name a few. She has been able to gather support for responsible server training and creating a checklist of community events that serve alcohol to reduce negative consumption practices. The QPR education on suicide prevention awareness has been well received. We have been able to combine efforts for community surveys on encouraging businesses to go "smoke free" and educational events for the public and professionals on all of the prevention topics.

Through the support of PMO, Kathy has been a tireless advocate for reducing alcohol and drug abuse, tobacco cessation and suicide prevention education. I look forward to continued collaboration to improve the lives of all the residents of Crook County.

Sincerely,

A handwritten signature in black ink, appearing to read "Rebecca Tinsley".
