Kelly Rees B.A.  
Community Prevention Professional  
Prevention Management Organization of Wyoming, Fremont County Office  
716 College View, Suite C  
Riverton, WY 82501

*Dear Ms. Rees:*

I write on behalf of the Eastern Shoshone Tribe's Health Programs in support of the Fremont County Prevention Management and the group's focus on prevention of substance abuse in our community. As part of the leadership committee in Fremont County for the PMO we help to identify gaps and develop strategies that may work within our communities such as reduce tobacco use amongst our youth population, educate leaders and others about what they may do to help in prevention efforts in their community or organizations, etc.

The collaboration between the many organizations that has occurred over the last two years has helped to educate and promote activities that can have a positive influence on reducing substance abuse. Having an organization such as this place in Fremont County that can focus efforts helps all of our organizations strategize on efforts that we could not do alone.

Sincerely,

Catherine E Keene  
Executive Director Health Programs  
Eastern Shoshone Tribe
