Dear Cassandra:

I am happy to write this letter in support of the work you are doing with the Prevention Management Organization of Wyoming. In human resources we work with people every day. Sometimes we do not understand the impact that we have or can have on our employee's lives. We reached out to you when one of our own board members had an employee commit suicide. This was a devastating event at their organization and it made us even more aware that we needed to better understand how we can be a resource to our employees.

I am excited for you to speak at our local High Desert Human Resources Association meeting in February and then again at the Wyoming SHRM State Conference entitled *HR Hero: Find your inner super power*. It doesn't take super powers to know that people matter and sometimes you just need to listen and refer them to the help they need. We are so excited that you will give us the tools we need to do our jobs better.

Thank you again for all your support and I am looking forward to working with you this year!

Sincerely,

Kara Beech
