Riverton, WY 82501

Dear Prevention Management Organization of Wyoming, Fremont County:

I am writing this as a formal recognition of support for you agency in Fremont County. Your work toward community safety is greatly appreciated. Specifically, you media efforts in conjunction with the efforts of our agency and the local WYDOT PR specialist help to reach the general public with much needed education. This education works in favor of substance abuse prevention which in turn assists our message relevant to highway safety related issues. We urge you to continue your efforts and collaborations in order to work toward improving Fremont County as a whole.

Respectfully,
