January 26, 2016

Johnson County Public Health is pleased to provide this letter of support for the Prevention Management Organization of Wyoming, more specifically for Johnson County Community Prevention Professionals, and the Johnson County Prevention Council.

Johnson County Public Health has been fortunate to participate in the Johnson County Prevention Council, and most recently, hold an active leadership role with the Prescription Drug Abuse work group. Through the Prevention Council, we have had the chance to partner with the Buffalo Police Department, Johnson County Sherriff's Office, and the PMO, to host Drug Take Back events, as well as media campaigns on the importance of proper disposal of unused medications. This collaboration not only focuses on the DEA's Drug Take Back (Disposal) Program, but also includes partnerships with the Wyoming Medication Donation Program, as Johnson County Public Health is a donation site to collect reusable medications and get those to the people of Wyoming that can take advantage of the program.

Our agency fully supports the Community Prevention Professionals with the Prevention Management Organization of Wyoming and Johnson County Prevention Council, and look forward to continuing to expand a partnership to educate and empower the residents of Johnson County.

Sincerely,

Robin King  
Johnson County Public Health  
Safe Kids Coordinator, Public Health Response Coordinator
