To Whom It May Concern:

This letter is to communicate support for our Prevention Management Organization and the Community Prevention programs that we rely on here in Lincoln County. I have enjoyed working with Brittany and this organization and have witnessed immediate impact in our schools. I have appreciated and relied on the additional resource they provide to educate our students in Lincoln County School District #2. We have asked for their assistance in providing QPR training to our staff and have welcomed educational forums, presentations, and programs into our schools.

The PMOWYO has always been willing to provide quality instruction for our students and staff. I am always impressed with Brittany and the presentations she offers as we try to keep up with the current trends of drug, tobacco, and alcohol use amongst our teens.

The element of our relationship with PMOWYO that I appreciate most is the partnership to inform, and provide timely information for our students. We could not prepare our students for success without a quality partnership focused on prevention. Students often have questions for counselors, teachers, and administrators following presentations and activities provided by the Prevention Management Organization. I fully support and will continue to foster the partnership between our school district and the PMWYO. I look forward to a continued collaboration effort with Brittany. If you have any questions or would like more clarification please don't hesitate to contact me.

Thank You,

Jason Horsley
Director of Secondary Instruction
Lincoln County School District #2
