Cody, WY 82414

To Whom It May Concern:

I have worked with the PMO of Wyoming since its inception in Park County as a board member of the Park County Coalition Against Substance Abuse. The PMO has been an effective partner to our coalition in addressing substance abuse issues. PMO staff provide subject matter expertise on substance abuse prevention, coalition building, and prevention messaging. They likewise provide staff support to our coalition by facilitating meetings and work groups, member engagement with the community, prevention messaging for the community, and community prevention activities. The current PMO staff has built effective working relationships with service providers, community stakeholders, and residents in facilitating a coordinated prevention effort. As one of their partners I endorse and fully support their continued funding. Thank you.

T. L. Feathers  
Immediate Past Chairman  
Park County Coalition Against Substance Abuse
