Charlotte and Rachel,

The positive influence needed, in our schools, to help students, not only understand, but be active parts of the prevention of drug use and other conditions in the schools, is vital to all student success. The work you do and the help you provide gives us not only the tools to talk about, but assistance in the battle to win students over to "Just Saying No". The world we live in is changing so fast and the differences in the kinds of drugs and the strength of the drugs changes the playing field for students. Other things such as suicide seems to be on the rise and handling the prevention is another area where you stepped in and helped educate us. The more knowledge and guidance we can obtain from you makes these challenges easier to understand. The two of you have been so good at asking, meeting, and supplying answers and support for our district.

In this day and age passion for the right thing is a blessing and the passion and dedication you provide is not only evident, but vital in our struggle to keep our students safe and away from drugs. I know we would struggle more to accomplish these things without you. The coalition that you are members of, PCCASA (Park County Coalition Against Substance Abuse) would not be as effective if it were not for your commitment to the coalition and to our county. It is an honor to be part of the coalition with you and to work with you. I know I can call anytime and get help and advice. How can we ask for more?

Thank you seems to be too little, but you need to know how much we appreciate your help, support, and dedication. Your efforts are worth the struggles and hard work you continually do and our county is a far better place because of your actions and work.

Thank you again for all you do. You are making a difference.

R. J. Kost
