To Whom it May Concern:

Please accept this letter as my recommendation and fullest support for the efforts of the Prevention Management Organization.

I feel that my recommendation carries the weight of my collective experience in the following roles:

- I am Chief Operations Officer for PitchEngine, in central Wyoming. In that capacity we publish content statewide across 8 separate community news streams to a daily reader base of 50,000 people.
- I was recently selected to serve on the Prevention Coalition in Fremont County.
- I am a Wyoming resident, living in Fremont County.

In my interactions with various professionals on the Prevention Management Organization team across the state, I've encountered a passionate and highly competent staff that is effectively promoting the message of substance abuse and suicide prevention. Further, with my connection to the daily news across the state, I can say that unequivocally, these efforts are paying dividends.

I've been impressed by the PMO team member's almost personal mission to advocate for a safe community and their willingness to leverage whatever platforms they can to spread that message. From a professional perspective, this is an effort that we will continue to support with PMO leading the way.

I will make myself available for any further discussion or clarification at: 307.349.8211

Respectfully Submitted,

*Fabian Lobera*
