Quinn Hutcheson  
Community Prevention Professional  
Prevention Management Organization of Wyoming: Platte County Office  
951 South Street  
Wheatland WY 82210

Dear Quinn,

I am writing this letter to express gratitude for the support you have given Platte County School District #1 in Wheatland, WY. As you know, the Jason Flatt Act requires that school districts provide 8 hours of suicide prevention training to all staff members over a 4 year period. The work you have done has been essential in securing the training we need to provide our staff members.

Over the course of scheduling the trainings this year, each potential obstacle was handled with confidence and optimism. That has allowed us to schedule Question, Persuade, Refer (QRP) training with over 20 of our new staff members and safeTALK training with over 100 of our certified staff members and administrators. Not only do these trainings meet the requirements of the Jason Flatt Act but they give our teachers and staff members the tools they need to support students.

Quinn, you truly show dedication to the Platte County community and the mission of PMO through your work with Platte County School District #1.

Sincerely,

Tia Stroup, Ed.S. NCSP  
District School Psychologist  
Platte County School District #1
