**The professionals with Prevention Management Organization have done great work in Fremont County. They have been wonderful partners with the Riverton Police Department in working to reduce or eliminate issues related to substance abuse and suicide. They are advocates for appropriate education regarding matters of over-serving of alcohol, of reducing underage access to tobacco products, and of finding healthy ways to discuss suicide. PMO was instrumental in placing lock-boxes throughout our community to allow people to properly dispose of unwanted prescription medications. More than 450 pounds of unwanted medications and packaging were collected in 2015 at the Riverton City Hall drop-box alone.**

**I can whole-heartedly endorse the work being done by Prevention Management Organization, and they have my full support.**

**With warm regards,**
