

Senator Floyd A. Esquibel
Wyoming Senate

January 25, 2016

To Whom it May Concern:

I have had the privilege of getting to form a relationship with the PMO through Steffanie Leicht and Mikki Munson. As a legislator who has worked with mental health issues in the community, I firsthand see the value of the collaboration the PMO provides in a community.

There is a lot that has been done in Laramie County by the PMO and a lot more that can be done around prevention efforts. Steffanie and Mikki, along with the PMO, have been a valuable asset as they are able to form and strengthen key relationships, provide assistance to the community on a level that clinicians' do not have the capacity to do, and promote and delivery strategies that will bring further collaboration and a healthier community.

The PMO is an asset and the Laramie County office's focus on collaboration will continue to be something that the community can benefit from. I have been impressed with the work that the Laramie County office has done in the past, and where they are headed with their current efforts. The PMO is in tune with what a community needs and is aware of who needs to be at the table to bring about effective change. Without their efforts, the burdens of substance abuse, tobacco and suicide prevention would fall into the hands of those who do not have the capacity to deal with such large issues.

Thank you for the further consideration of working with the PMO,
