To Whom this Concerns,

I wish to express my support for the Wyoming Prevention Maintenance Organization (PMO), the Teton County staff, Matt Stech and Jacob Richins, and their efforts to meaningfully promote prevention efforts regarding alcohol, substance, and tobacco use and suicide. I participate on the Teton County Substance Abuse and Tobacco Prevention Coalition, which has been operational for a year and is competently organized and guided by TC PMO. I am pleased about prevention efforts regarding E-cigarettes, safe medication disposal, teen drinking, and tobacco use, and the level of engagement with other persons and organizations. The TC PMO provided key leadership to draft recommendations to the Jackson Town Council to change ordinances about the sale of alcohol, placement of signage in liquor stores, and issues about clean air. Staff has worked collaboratively with all components of the community and is committed to ensuring dissemination of information valuable to our work.

Please strongly consider providing a robust level of funding for this vital organization. If you have any questions, please feel welcome to call me, 307-732-5778, or email to [araben@tetonwyo.org](mailto:araben@tetonwyo.org)

Sincerely,
