To: Brittany Ritter,
Prevention Management Organization of Wyoming, Lincoln County

First off I would like thank you for your tireless work in helping the communities and those of us who serve our communities in the different fashions that we do. The education you helped me bring here was a great resource for all of our first responders. Continued training is what helps us all to provide a great service to help our citizens.

Being able to work with your organization to help fund and bring in Officer Galloway with Tall Cop Says No was a great success with over twenty people attending from law enforcement, medical, and education providers. In our small communities it difficult to bring in trainers with the wealth of information they can provide due to our limited funding.

Pairing with you enabled us to get him here sooner than expected to educate our responders on the new and upcoming drug trends and the importance of how to deal with the issues when they arise.

This training would have been much more difficult to put together without you and your organization's assistance

I look forward to working with you and your organization in the future to help better our communities.

Respectfully

Mike Thompson
Chief of Police
