Re: Washakie County Prevention Management Organization

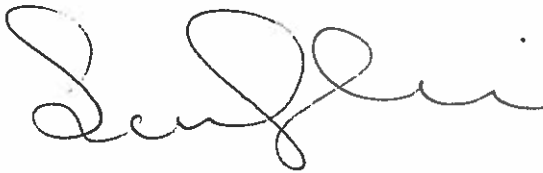

To Whom It May Concern:

I am writing this letter in support of the Washakie County Prevention Management Organization of Wyoming (PMOWYO) of Washakie County. I run the Youth Alternatives (YA) Program here in Washakie County. PMOWYO and YA have worked on projects together throughout the community for a number of years. PMOWYO is actively involved in the Youth Alternatives Council that meets once a month. PMOWYO has provided community involvement opportunities for YA and other organizations in Washakie County. PMOWYO has provided QPR and ASIST trainings for YA and other community organizations to stay up to date on their suicide prevention training. PMOWYO has also provided the funding to keep the TIPS training available to Big Horn Basin residents and businesses. PMOWYO brought in the Tall Cop to help support parent education in the Washakie County Schools in regards to substance abuse.

I believe that Washakie County Prevention Management Organization is a vital asset to Washakie County and its residents. They provide numerous activities and funding opportunities to help our community stay up to date on the prevention needs of the community. PMOWYO has made an impact in this community through their commitment to providing residents with resources related to substance abuse, mental health issues and an all-around better community.

If you need any further information regarding the benefits of PMOWYO in this community, please feel free to contact me.

Thank You,

Sarah Garcia
