Quinn Hutcheson  
Community Prevention Professional  
Prevention Management Organization of Wyoming  
Platte County Office  
951 South Street  
Wheatland, WY 82201

Dear Quinn:

Over the past couple of years the State of Wyoming has gone to the format of one organization being responsible for prevention management in every county of the State. Initially I did not see how this was going to benefit Wheatland or Platte County.

During this time I have grown to appreciate this system. I have seen through community meetings and other community events there are others who are truly interested in the betterment of our communities and state.

I have personally been a part of the local coalition, which has its struggles. As a coalition we have set and identified needs and goals. The difficulty is reaching or meeting these goals when certain segments of the community want to fight you. Through this coalition we are moving forward, and will continue to move forward.

These offices are important to the communities and would request that future funding considerations be continued.

Sincerely,

A handwritten signature in cursive script that reads "Randy Chesser".

Randy Chesser  
Chief of Police
