RE: Prevention Management Organization of Wyoming, Sublette County

To whom it may concern,

I am writing this letter to commend Mrs. Ranae Pape and the PMO in Sublette County. The work she has done and the accomplishments for the community are first rate. I have attended several meetings and trainings she has put on over the last few years and have really seen the attendance grow at each event. She has worked with bar owners to get TIPS training done for the community. She has worked hand in hand getting the gun locks out to the community members. She recently brought a speaker from the Governor's office talking to community leaders about the alcohol and drug issues in our community. She works to make sure she is not the only one talking about issues she strives to get everyone involved. In recent weeks she provided all Law Enforcement with suicide prevention information cards for us to hand out if and when the need arises.

The PMO position in Sublette County is a vital part of solving problems in our communities. I am honored to have worked with Mrs. Pape and will continue to work with her in any capacity needed.

Sincerely,

Lieutenant Jason S. Green
Division "T" Supervisor
